

REGISTRATION

Your contact information collected in this form will be used by eHealth Ontario's ONE Support (Service Desk) to meet your needs if and when you call with a problem. We understand that you may decide to provide support to your internal clients through an internal assigned contact, or to contract the service out to a third-party. Regardless of how you organize your support, it is important that those responsible for the role are familiar with our support and incident resolution procedures.

DO YOU HAVE A HELPDESK OR SUPPORT CONTACT?

Definition: The designated person, or group of persons, which handles all requests for support from client subscribers/users and acts as an intermediary between your subscribers and ONE Support. Before contacting ONE Support for problem resolution, your Helpdesk or Support Contact is expected to evaluate, classify and triage calls. ONE Support will require a detailed description of the problem for resolution. Where required, your Helpdesk or Support Contact is expected to help carry out diagnostic procedures and to work with us in resolving incidents.
