

The eHealth Ontario’s Email Outbound policy, limits the number of emails going outbound to the internet from a registered ONE Mail user to maximum of 5,000 per hour. Bulk sending is designed for users who need it for **business-critical purposes**. Please complete the Bulk Sender Request form. Note, we only enable Bulk sending on a per user basis and per one time request.

Please submit request to the ONE Mail Product Team: onemailinfo@ehealthontario.on.ca

- You must have a valid ONE Mail account to make this request.
- Complete all areas on the Bulk Sender request form.
- All bulk sending requests are subject to approval with valid justification.

NOTE: Please allow for 3 business days for the request to be processed.

NOTE: Sending spam through ONE Mail is strictly prohibited. Emails going outbound to the internet from a registered ONE Mail user is a maximum of 5,000 per hour. If this quota is exceeded, the user’s email account will automatically be stopped and blocked for a maximum of up to three days. Our service desk will notify the appropriate IT support contact person at the organization in question. The individual whose account has been blocked will not be permitted to send any more emails and will be required to take action by working with their local IT person to remedy the issue on their side before they are unblocked.
